

VOCATIONAL PATHWAYS

Vocational Pathways provides new ways of helping students see how their learning is relevant to a wide range of study options and careers.

The Pathways provide a clear framework for further study or vocational options. There are a lot of options out there and Vocational Pathways is a tool that helps you to see how your strengths, interests and achievements relate to future study options and job opportunities.

The pathways cover six broad industry sectors shown by a specific colour:

- Manufacturing and Technology
- Construction and Infrastructure
- Creative Industries
- Primary Industries
- Social and Community Services
- Services Industries

When you look at the colours of the subjects in this [Course Information Guide](#) you will be able to see how many credits are offered in the relevant industry sectors that your student may have a strength or an interest in.

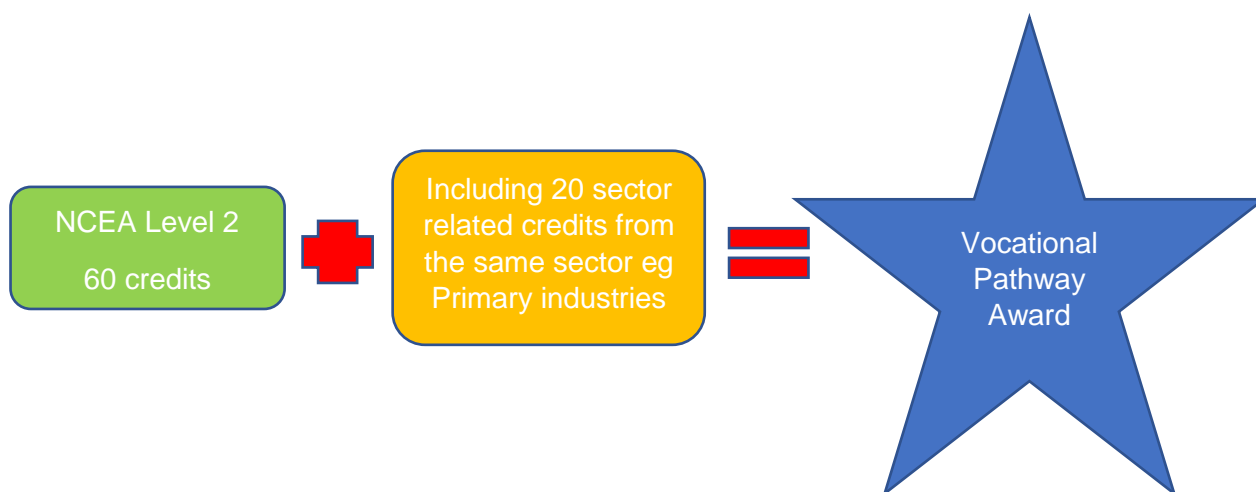

VOCATIONAL PATHWAY PROFILE

Copy the credits for each subject you have selected to the same Pathway columns below and then add up to reach your total in each column. This will give you some pathways to research on www.careers.govt.nz.

	Subject	Creative	Primary	Services	Social & Community	Manufacturing & Technology	Construction & Infrastructure
1							
2							
3							
4							
5							
6	PE						
	TOTAL						

VOCATIONAL PATHWAYS AWARDS – LEVEL 2

Having an award on your Record of Achievement is a way of showing employers that you have the skills and knowledge they are looking for.
