

# NCEA CHANGES 2024

For some years, the New Zealand National Qualifications Authority has been working on major changes to NCEA Level 1, 2 and 3. These changes have evolved after consultation with teachers, employers, students, parents and communities.

Key changes at Level 1 for 2024 include broadening access to a Science curriculum by consolidating Physics with Earth and Space Science and Chemistry with Biology, along with a new general nature of Science subject. Accounting, Art History, Classical Studies and Business will no longer be offered at Level 1. However, these subjects can be offered at Level 2 and Level 3.

Mandatory literacy and numeracy standards will be introduced from 2024 to help ensure everyone who has an NCEA qualification has a good level of foundational literacy and numeracy. These will be externally assessed digitally twice a year. Students will need to achieve them preferably in Year 10 or Year 11 in order to be awarded any level of NCEA qualification.

Level 1 which has required 80 credits will now require 60 credits plus attainment of the literacy and numeracy standards for students to be awarded the qualification. In addition, standards have been reviewed and rebuilt so there are fewer, but larger standards and there will be more of an external component for some subjects than students have been used to. This will take the form of portfolios and Examinations.

## **Level 1 NCEA 2024 60 credits plus Literacy and Numeracy Standards**

**Those who are in Year 11 in 2024 will continue on with the current  
Level 2 and Level 3 NZQA Qualification in 2025 and 2026.**

**Similar changes will follow for NCEA Level 2 in 2026 and  
NCEA Level 3 in 2027**
