

MARINUS DU PREEZ
Physiotherapist

Marinus graduated with a Bachelor of Health Science (Physiotherapy) from AUT in 2017 before heading abroad to play semi-professional rugby in Holland for Hilversum. He has since returned to the town of trees and champions to join our team at Vigour Physiotherapy.

Marinus interest lies in rehabilitation, musculoskeletal based practice, and strength and conditioning. Outside of physiotherapy Marinus is a keen outdoors man. He enjoys an occasional game of golf, loves a game of backyard cricket, and relishes the chance to get out on the water for a scuba dive or a cheeky sail when the weather permits.

Marinus has previously been involved with several different sporting teams. His most recent teams were: Hamilton Wanderers Football club (ISPS HANDA PREMIERSHIP) in the summer of 2018/2019, Cambridge High school 1st XV rugby 2019, Leamington Rugby club 2019, as well as the Waikato rugby Union under 16s 2019.

He is also running the High performance programme at Cambridge High school focusing on Rugby, Netball, Basketball and football. The programme is designed to give students the opportunity to be part of an elite environment as well as focusing on injury prevention and over-all wellbeing.

Marinus is a fun and enthusiastic person who is willing to help others in need. Marinus enjoys meeting new people and loves having a chat. He is very excited to be joining our team where he will be able to showcase his knowledge.
